

# RDP•260P RDP•330P

ENGINEERED  
TO PERFECTION

▲ The RDP•260P and RDP•330P variable size perfecting presses have been designed specifically for commercial printers who want to better serve the needs of their existing customers, pursue new business, and save on material costs. Substantial savings in paper can be realized while producing exactly what the customer needs, and can represent annual paper savings of up to \$100,000! ▲ Engineered to optimize perfecting technology, *exact repeat, variable size, blanket-to-blanket* web presses from RDP Marathon allow you to produce exact cut-off sizes, with easy-to-remove variable size inserts in 17" to 28" circumferences to provide greater flexibility and product offering. ▲ Available in widths of 26½" and 33½", and capable of operating at speeds up to 1,500 fpm, RDP perfecting presses feature the Maraflo V™ 4-form roll design, with an integrated dampener to ensure superior ink laydown at all production speeds. Drive train precision ensures exact register and reliable performance at high speeds — a capability vital to commercial markets. ▲ The RDP Smart•Set™ press control system provides control of press functions on easy-to-read, easy-to-use touch screen graphic displays accessible from both the main console and individual print units. Developed to integrate seamlessly with management software, the control system provides job storage/retrieval, and modem interface for remote systems diagnostics. ▲ Superior quality, fast make-ready, exceptional speed, and robust construction truly make the RDP•260P and RDP•330P ... presses that are engineered to perfection. ▲

| General Specifications* | RDP•260P                      |     | RDP•330P |     |
|-------------------------|-------------------------------|-----|----------|-----|
|                         | Inches                        | mm  | Inches   | mm  |
| Maximum web width       | 26.5                          | 673 | 33.5     | 851 |
| Maximum print width     | 26                            | 660 | 33       | 838 |
| Side adjustment         | .25" / 6 mm                   |     |          |     |
| Phasing adjustment      | 360°                          |     |          |     |
| Litho repeat range      | 17" to 28" / 432 mm to 711 mm |     |          |     |
| Maximum speed           | 1500 fpm / 457 mpm            |     |          |     |

## ENGINEERED FOR THE LONG RUN

■ RDP Marathon specializes in technical and custom engineering solutions utilizing combination print processes including litho, flexo, gravure, waterless and screen printing for quality web printers. ■ RDP Marathon is committed to meeting its customers' needs in both traditional and innovative product areas. In response to customers' present and future competitive challenges, RDP Marathon offers a wide range of capabilities supported by the creative thinking that enhances customer productivity. The RDP family of presses provide printers with the ability to serve existing markets while exploring rapidly emerging value-added segments. ■ The standard of excellence established by RDP engineering is maintained in the manufacturing of all of its presses, so that the high quality printer is assured of reliability, durability, and precision. RDP Marathon will settle for no less than complete customer satisfaction with every product and service provided — from customization, through installation, to after-sale support. ■
