

AUTOPAK™ MULTI-STREAM FAN FOLDER

MODEL 4800

RDP
MARATHON_{inc.}

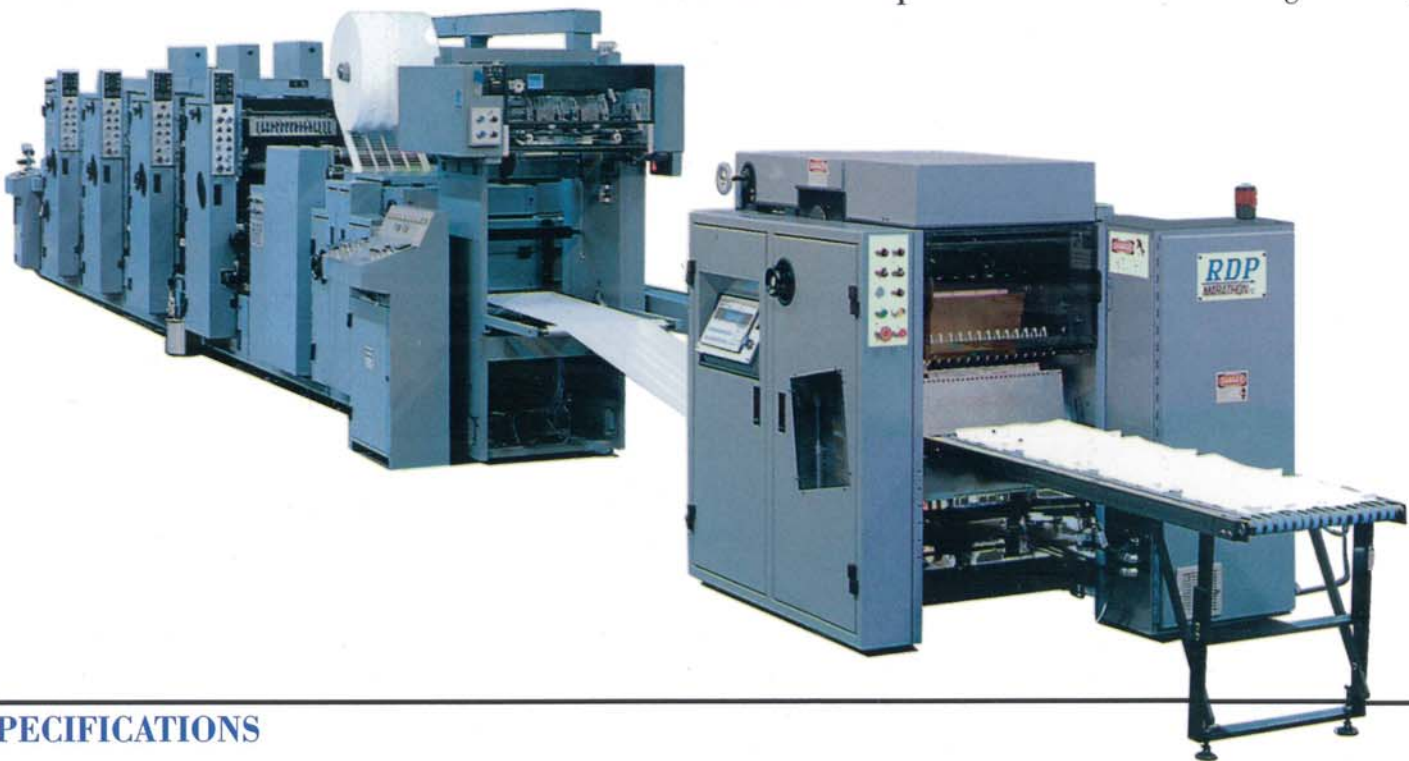

RELIABLE DURABLE PRECISION

AUTOPAK™ MODEL 4800

This fully automated, high speed, batcher/stacker fan folder folds multiple streams of labels or tickets. High speed performance handles faster press speeds to increase throughput and help realize a speedy return on investment. The AUTOPAK's exact count cut-off system allows completed multiple packs or streams to be delivered ready for shrink wrapping or packaging. Engineered to achieve superior performance and lower operating costs, the AUTOPAK is ideal for label, ticket, and specialty applications.

FEATURES

- Cut-off at 100% count accuracy within 0.015"/0.38mm of perforation, and pack separation at 600 feet per minute
- Accurate slitting of full width web to deliver multiple streams without ties
- PLC controlled system allows simple, fast set-up with available modem adjustment and diagnostics
- Up to 15 configurations can be saved for retrieval when needed
- Line-shaft drive adaptors available for a wide range of web presses
